Introducing

Moodle Enhance Theme

What is Moodle Enhance?

The Moodle Enhance theme is a new look and feel to Moodle, making it easier to navigate and use.

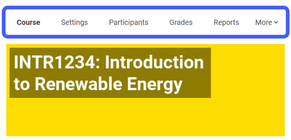
Navigation menus and bars

Header Menu

Provides additional buttons for sitewide navigation and support. Additionally, the edit mode button replaces turn editing on.

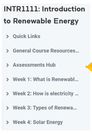
Course Menu

Course settings and additional functionalities have been moved above the course banner. The menu will always remain on the screen for quick and easy access.



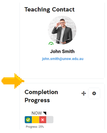
Course Index

The left sidebar is now collapsible and exclusively designed to navigate within the course page with the use of course content headings. If activity completion is enabled, students can track their completion in this menu.



Block Drawer

The right sidebar is a collapsible and expandable section which hosts all course blocks. The default list of course blocks will vary, depending on the faculty.



Main Course Section

Banner Progress Bar

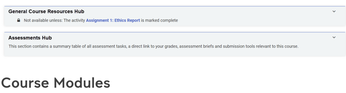
If activity completion is enabled, the banner displays a progress bar to students. The updated banner allows students to track course progress throughout the semester.

Quick Links

Enables teaching staff to provide quick access to commonly used sites at the beginning of the page.

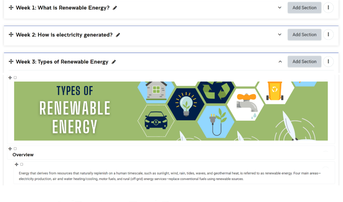
General Course Resources Hub

Provides a predefined, dedicated area with general course resources, feedback and assessment information.



Course Modules

Updated look and feel of course modules, providing additional flexibility to quickly add new activities, resources and sections.



'Back to Top' Button

This new button enables quick scrolling back to the top of the page. Beneficial for accessibility purposes and when pages become too lengthy.

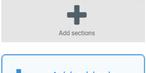
'Focus Mode' Button

This new button clears any distractions or sidebars from the screen, allowing staff and students to focus on the main course section and what matters most.

Updated Editing Options

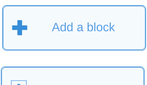
Bulk Editing Toolbar

Introducing a new editing toolbar which enables the ability to edit a group of modules simultaneously. Options include move, visibility, duplicate and delete.



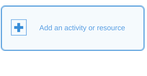
'Add Section' Button

Quickly add additional sections directly from the course page.



'Add a Block' Button

Quickly add new blocks to the right sidebar directly from the course page.



'Add a Block' Button

Quickly add new blocks to the right sidebar directly from the course page.
