WE WANT TO HEAR FROM YOU!

ONLINE SURVEY

Help shape an AI tool to improve health for people with intellectual disability

Researchers at UNSW, in collaboration with service providers and technology experts, are designing an AI reasoning tool to help notice signs of deteriorating physical or mental health and seek medical help sooner.

Your views will help us design a tool that truly meets the needs of people with intellectual disability, their families, carers and health service providers.

WHO CAN PARTICIPATE?

Family or carers
of people with
intellectual disability

Advocates
(including self)
for/with people
with intellectual
disability

Disability service
providers
(Frontline workers)
Disability managers
and clinical leads

Health service
providers
of people with
intellectual disability

All voices
welcome!

ABOUT THE SURVEY

The online survey takes about 15 minutes and includes questions about:

- ✓ Current situation and experiences
- ✓ Recognising deterioration and escalation
- ✓ Communication and information needs
- ✓ Use of care plans and technology
- ✓ Acceptance of AI in care

TAKE PART TODAY!

Scan the QR code
