

# Theme Comparison Overview

This infographic gives a visual explanation comparing the major differences between the previous theme and Moodle Enhance theme.

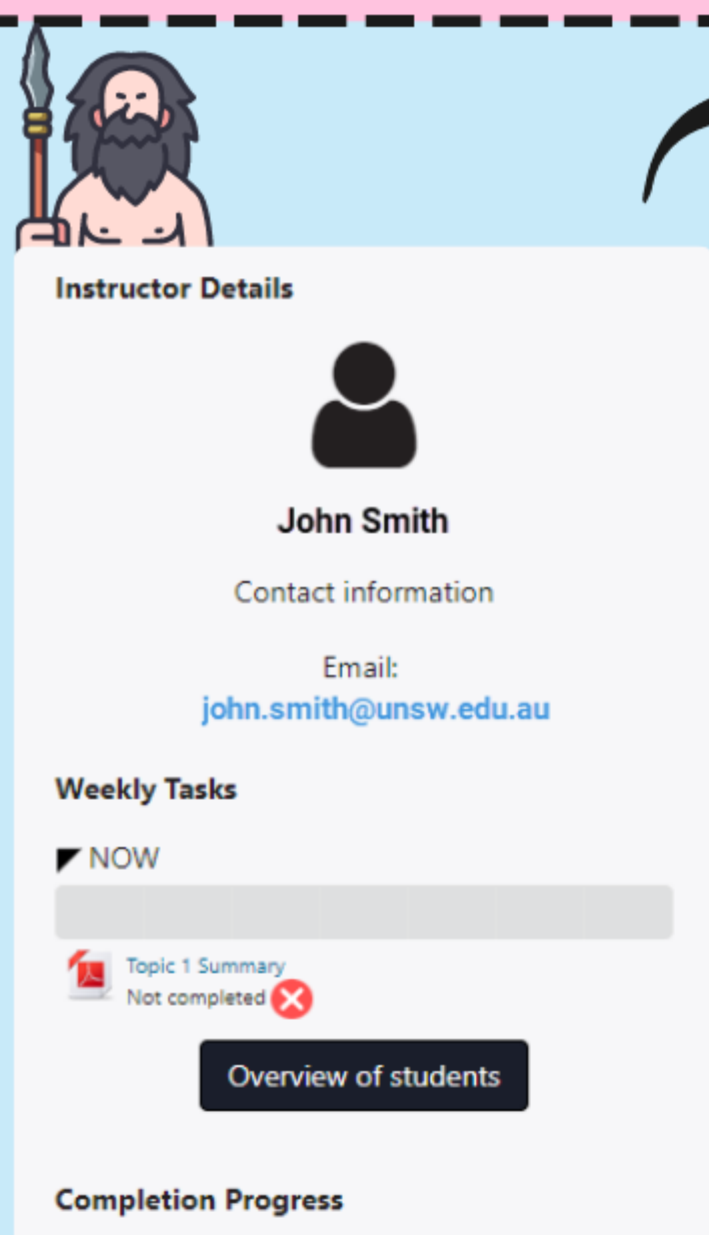

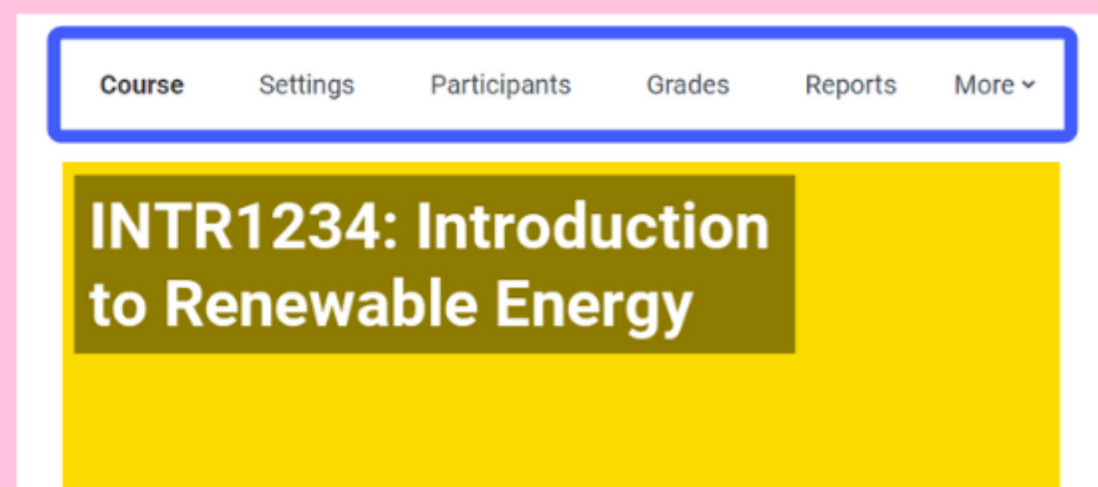

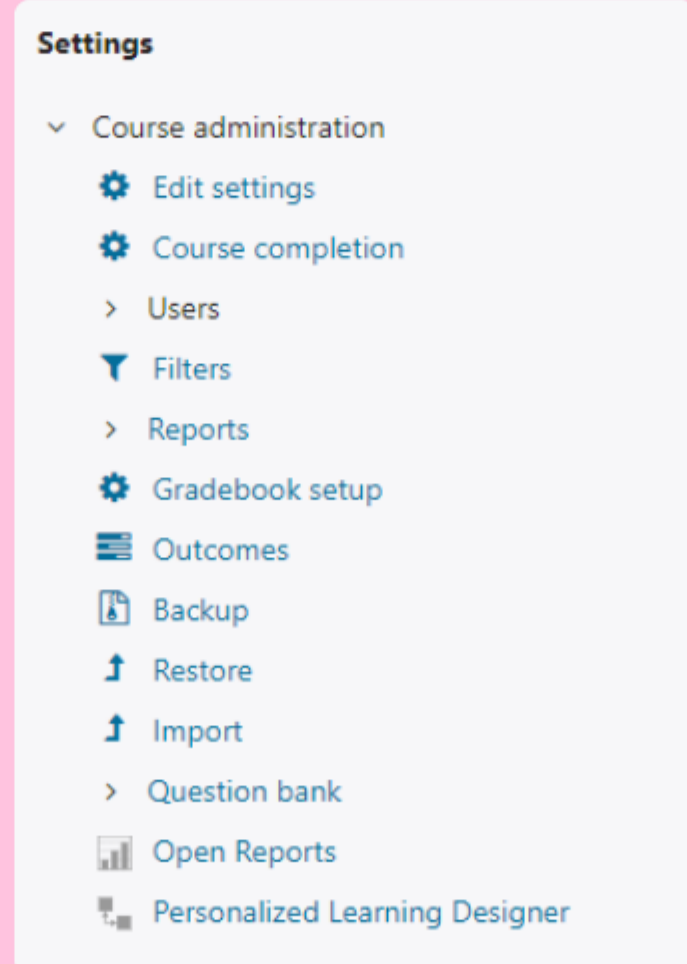

## Header Menu

Provides additional buttons for sitewide navigation and support. Additionally, the edit mode button replaces turn editing on.

## Course Administration

The left side settings bar has been moved to the top of the course with easier navigation for each function.

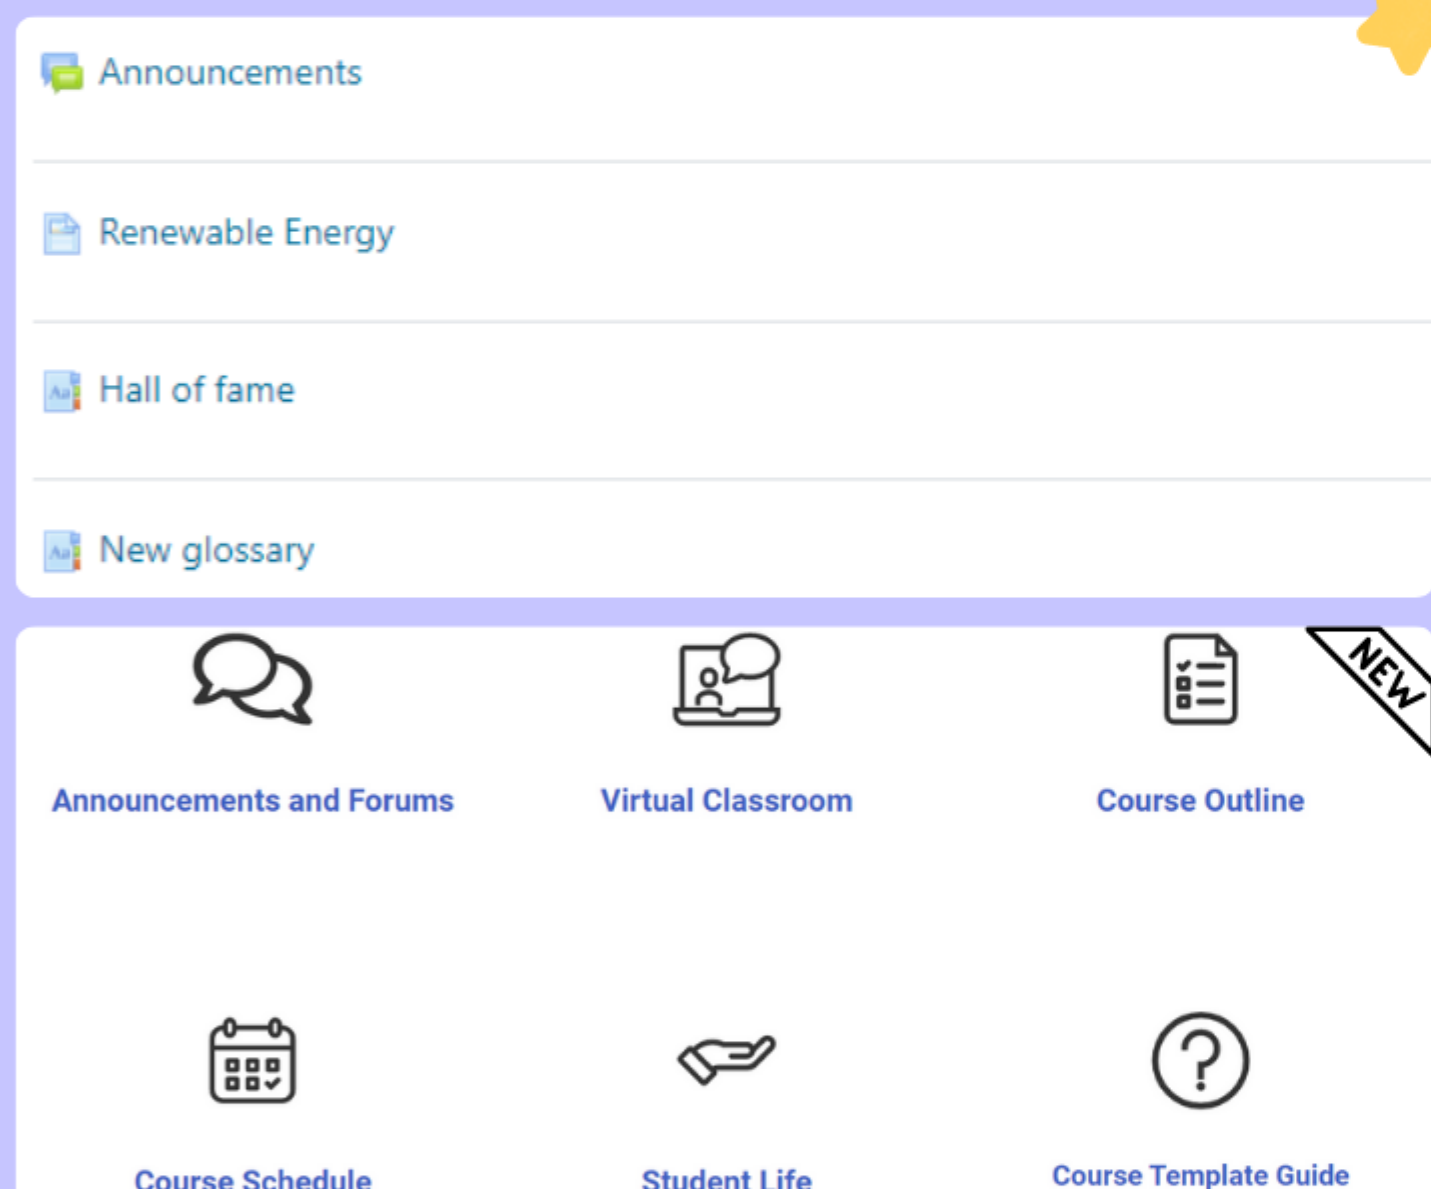

## Content Blocks

The left side content blocks have been moved to a collapsible right bar for increased visibility and usage.

## Course Banner Progress Bar

The course banner now displays a progress bar for students to track course completion throughout the trimester. This can be enabled by teaching staff in the course settings activity completion section.

## Quick Links

Enables teaching staff to provide quick access to commonly used sites at the beginning of the page.

## Course Modules

A dedicated section to host general course resources, feedback and assessment details.
